# MONETTE AGAIN IN DISHONEST WORK

# Postal Authorities In Los Angeles Stop Him

Interested in Continental Gold Bond Company, Purpose of Which Was Fleece Farmers - His Actions Here Cost Good Citizens Money.

J.B. Monette, whose meteoric career n Prescott has not been forgotten, has recently attracted the attention of the Los Angeles postal authorities

Monette with Louis M. Heimer were caught in the act of perpetrating a swindle in the form of the International Gold Bond company, with offices in the Hellman building. The officials have acted, and the company will soon be no more.

Farmers and those in the rural districts were the game sought to be caught by Monette and his confederate through the means of a glittering getrich quick offer, which was supposed to pay fabulous profits.

Bonds of the company were sold at from \$100 to \$1,000, payments being made regularly in stated sums. At the expiration of a certain period the investor was to be allowed to draw out his investment together with unusually large profits.

As security the company advertised the possession of \$200,000 worth of realty property in Los Angeles. The postal officials discovered fraud, but not until after several residents in the vicinity of Indio had invested.

Monette's residence in Prescott was in connection with the Federal Investment & Trust company, in which he interested a number of leading citizens, among them being H. P./Anewalt, Fred E. Biles and several others. They are reported to have made good about \$4,000 as a result of Monette's business activity.

Monette's true character was first discovered in Winslow, where he took a large sum from a woman, which she wanted invested in the Federal company. It never reached the office, and she exposed him. He was in Bisbee for awhile and bilked several people there. At one time he was wanted in Colorado for deserting his wife. His repulation when he left here had a rank odor.

NEW YORK, April 7 .- Fresh from his recent triumphant municipal election, Edward F. SAN ANTONIO, Texas, April 6 .-After an eventful trip across a large portion of Texas, President Roosevelt arrived at San Antonio at 8:39 tonight. When the special train bearing the president reached the station, he was greeted with cheers from thousands of throats, and the lusty "Hurrabs" of "his old comrades in arms, the famous Rough Riders of the Spanish Amercian war, who are holding their annual reunion near the crumbling walls of historic Alamo. could plainly be heard above the din. The city is a mass of color in honor of the president's visit. Business houses and residents are decorated with flags and bunting and tomorrow's exercises promise to be the most patriotic de monstration ever held in the state. The president's train was run on a siding near the station where it will remain until tomorrow night when the visitors will leave for Ft. Worth. The train is being guarded by a detail of city police, and as the president will be astir early tomorrow every precaution will be taken to permit him to secure a good night's rest. The president's train left Dallas at half past 5 o'clock this morning. Its occupants were sleeping soundly when the long run across the state began, but the president was up at 7 o'clock. The first stop of the day was at Hillsboro where practically the entire population of the town turned out. The president spoke briefly and was given a cordial reception. When the train reached Waco a great crowd greeted the president, who was escorted to a stand in the city park where he spoke to a great crowd briefly. The president returned to the train with difficulty through the dense crowd. As the train moved away he stood on the rear platform and waved his hand to the people. The train glided swiftly across the plains of north Texas and at noon the entered fertile valley of the Brazos. Several stops were made, one which interested the president very much. When the citizens of Temple learned that the train would not stop at their city, a hurried call of the city council was made. The city fathers immediately passed an emergency ordinance requiring the train to stop at the station three minutes. When this was telegraphed the president

laughed heartily and seemed pleased. The stop was made and the entire population of that little city was on hand and the greeting accorded the er was reached at 12:30 o'clock where the train was switched to the International and Great Northern railroad and the run to Austin began. The capital was reached at 2 o'clock and the president was met by Governor Lanham, and other distinguished citizens and a committee of the legislature. The persident was driven about the city and soon afterwards started on the long run to San Antonio.

#### No Tree Planting at Public School.

From Friday's Daily.

Because the grounds surrounding the large public school building on East Gurley street have not been graded no Arbor Day exercises will be held there today. Neither will there be any holiday today in the school.

Other of the large schools in northern Arizona will, however, have tree planting and appropriate exercises. It is expected that by this time next year Prescott will be ready for something elaborate.

The school law covering Arbor Day provides that the southern and northern parts of the territory shall hold their exercises at different times of the year, the north a few weeks later than the south on account of climatic conditions.

Professor B. D. Billinghurst, principal of the local schools, stated yesterday evening that plans are under way to beautify the school grounds in the near future by means of flower

The flowers will be planted in beds around the walls of the building. When the school yard is graded later this will not interfere. Professor Bitlingburst feels that the carrying out of this plan would materially add to the beauty of the school building.

St. Joseph's academy will hold appropriate exercises this afternoon. After the singing of patriotic songs and an explanation to the children of what Arbor Day means several shade and ornamental trees will be planted. In lieu of proper exercises the

#### Sweeping Order Against Miners.

KINGMAN, April 5, (Special). - One of the most sweeping injunctions ever issued in this county was granted the German-American Mining company at this term of the district court by Judge R. E. Sloan.

The order is intended to restrain members of the Western Federation of Miners, and especially the union at Vivian, from interfering with the working of that property.

The order is directed to the miners' union and a large number of the leaders of the strike movement, which was recently inaugurated against a number of properties of the district.
